1. READING

Read the following text:

For years, many people thought that New Zealand was famous for sheep, rugby and more sheep. But suddenly these islands have a new image. They are now one of the most fashionable tourist destinations in the world. And all because of a film, or actually three films. *The Lord of the Rings* was filmed in New Zealand and it's a wonderful advert (=Werbung) for the country. People now want to visit New Zealand to see the places in the film. Tourism in New Zealand is doing very well – that's the LOTR effect. Some tourists come just to see the film locations. For example, there's a beautiful place called Matamata just south of Auckland. 250 tourists come here every day. They pay thirty dollars each to see what is left of Hobbiton village from the first *The Lord of the Rings* film. Tours of the various film locations are very popular. In the two weeks after the first film came out, holiday bookings went up more than twenty percent. Experts think that the number of tourists will double in the near future and it won't stop there. Some people think that New Zealand will soon have over three million tourists a year. But there are some questions about all this success. Will tourism change the natural beauty of the landscape? Will it affect (=beeinflussen) the wildlife? And will tourists still want to visit New Zealand if these things happen?

Now read the statements below and decide if they are true (T) or false (F): (14 points)

- 1 Only one of the *Lord of the Rings* films was made in New Zealand. _____
- 2 They are making advertisements using the New Zealand countryside. _____
- 3 You can only see part of the Hobbiton village at Matamata. _____
- 4 Many tourists go to meet the actors there. _____

- 5 Tourism went up right after the films came out. _____
- 6 Holiday experts say the numbers of holidaymakers will go down. _____
- 7 Tourism will affect the natural beauty of the landscape. _____
